

Fertilizer and Weed Control Application Notice

Community High School District 94 (West Chicago Community High School) practices Integrated Pest Management to minimize the use of any pesticides on school grounds.

The Structural Pest Control Act (225 ILCS 235/) and the Lawn Care Products Application and Notice Act (415 ILCS 65/) requires public schools to notify parents/guardians and school employees at least 48 hours (two business days) prior to any pesticide applications on school grounds.

The term “pesticide” includes insecticides, herbicides, rodenticides and fungicides. Excluded from the notification requirement are antimicrobials such as disinfectants, sanitizers or deodorizers, insecticide baits and rodenticide baits.

Pesticide application notification can be included in newsletters, bulletins, calendars and/or other correspondence currently published by the District.

On Wednesday, July 26, 2023 Community High School District 94 will be applying the following products, weather permitting:

Escalade 2 Herbicide
Shaw's Turf Food Granular Fertilizer – All Analyses
Shaw's® Turf Food Crabgrass Control Barricade® 20, 28, 38, 50
Tri-Power® Selective Herbicide
Trupower® 3 Selective Herbicide

If you have any questions please contact Mike Day, our Maintenance Foreman at 630-876-6230.

Thank you.
