Course Details

We will create LOTS of graphic art work over the course of the semester. Each project will teach you new and more complex skills and concepts as you learn to use the computer and Adobe Illustrator. Each project will be assessed on the following: Creativity, Composition, Illustrator Skills, and meeting Assignment Requirements.

Along with your graphic art work, you will also be asked to **complete various written assignments** including: Self-Evaluations, quizzes, ArtTalks, critiques.

Participation is an important part of this class and is made up of the following: promptness to class, preparedness, respect, positive interaction, and daily work. Since we are working with the expression of our own ideas and opinions, some of which can be very personal, having a positive community atmosphere in an art classroom is vitally important.

There will be a **final** for class, which may consist of discussion, writing and possibly presenting.

You **may redo** any assignment if you are not happy with your results. Please talk to me first.

I do offer **Extra Credit**. This will only be accepted on a pre-approved basis & IF ALL OTHER WORK IS TURNED IN.
